

Working Prototype Known Problems Report

Product Name: BSOE Course Scheduler WebApp

Team Name: TEAM TEAM

Date: 11/30/2021

Team Members: Andriy Bondar, Arthur Weimholt, Shiyuan Huang, Nathanael Chow, Harmmeet Sohal

Known Bugs

- In some versions of py4web, when the admin tries to add/edit a course or requirement it does not allow them to edit when the course is offered. The boolean fields, which are supposed to be editable with a check box, cannot be edited. This appears to be a py4web bug since there are versions of py4web where this doesn't happen.
